RESEARCH ASSISTANT PROFESSOR POSITION IN SWALLOWING RESEARCH AT NORTHWESTERN UNIVERSITY

The Swallowing Cross-Systems Collaborative Lab at Northwestern University is accepting applications for a position focused on research in telehealth and respiratory-swallowing coordination.

Requirements include:
(1) a PhD in Communication Sciences and Disorders or a related field by the start of Fall 2021;
(2) previous experience conducting research in respiratory-swallowing coordination and telehealth service delivery;
(3) demonstrating evidence of potential to obtain external funding;
(4) strong writing skills;
(5) ability to think critically and broadly;
(6) ability to work well both independently and with others.

Desired qualifications (one or more, specify which):
(1) experience in respiratory inductance plethysmography, electromyography, and wearable sensors for swallowing;
(2) clinical training in swallowing disorders;
(3) post-doctoral research experience;
(4) publishing in peer-reviewed journals;
(5) evidence of service and/or leadership in university or professional organizations commensurate with experience.

Northwestern University is located in Evanston, IL, within the Chicago metropolitan area, and offers world-class urban, suburban, and rural living possibilities within a close radius for individuals of diverse backgrounds and interests. Salary is competitive and commensurate with qualifications.

To apply, candidates should email a Curriculum Vitae, a one-page research statement, two sample publications, and the contact information of three referees to csdchair@northwestern.edu or via US Mail to CSD Research Assistant Professor Search, 2240 Campus Drive, Evanston, IL 60201. Finalists will be asked to submit three letters of recommendation. Review of applications will continue until the position is filled.
